MOBILE DEPOSIT CHEAT SHEET

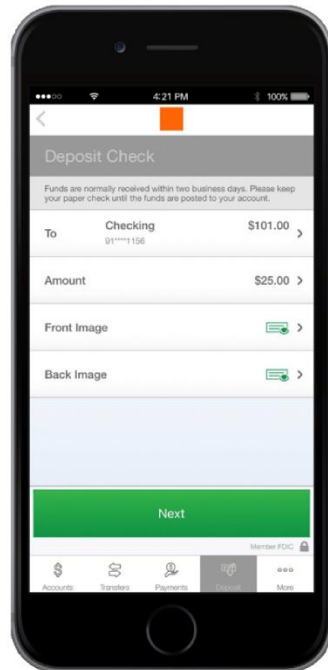

MAKING A DEPOSIT WITH OUR MOBILE APP IS QUICK AND SECURE

From deposit, you can deposit your paper checks, as well as the money you receive, through our personal payment service.

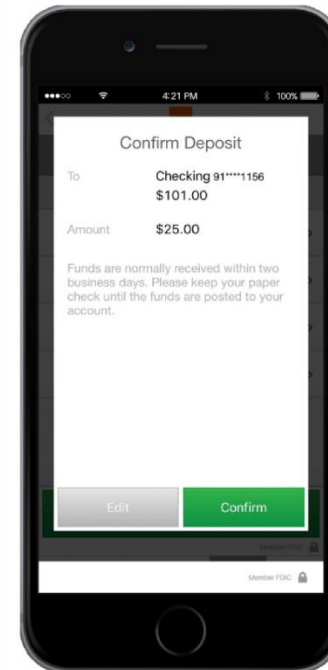

To deposit a check, begin by endorsing the back of the check. Within the app, select "Deposit Check", choose the account to make the deposit, and enter the amount.

Take a photo of the front of the check, against a clear background, without any objects. Ensure the entire check is visible, in focus, and well lit. Repeat this process for the back of the check. Once both images have been captured, continue to review your deposit and confirm it.

You can check the status of your deposit at any time. Statuses include pending, failed, and those that have been accepted and posted.

TIP: Write a note on the original document that says "Mobile Deposit", and keep for a specific period of time for your records, before safely destroying the check.
